

This year's World Prematurity Day was amazing and broke all records. We thank everyone who contributed to this fantastic momentum for action on preterm birth. People around the world organised charity concerts, information events, heartwarming family days, decorated hospital units with the famous socks line, illuminated buildings in purple, and much more, to give a clear signal that they care for the smallest. Let's keep this great spirit and combine our efforts in the long-term Socks for Life campaign. Recently, Socks for Life was shown at the World Congress of Perinatal Medicine in Madrid. For now, we wish you and your loved ones a very Merry Christmas, a peaceful and joyous holiday season, and a Happy New Year. See you in 2016!

Your EFCNI team

## World Prematurity Day 2015: Review

World Prematurity Day 2015 broke all records: On all continents in about 100 countries events were organised. Far more than 1 billion people were reached. EFCNI is so thankful and proud of all the commitment especially of our partner organisations. On our [review of World Prematurity Day 2015](#), you can find a selection of remarkable activities around the world from Australia to the USA.

## EFCNI Changemaker Map

On the [EFCNI Changemaker Map](#), we want to show the world that people work together internationally to improve situation for preterm infants and their families. In the few months since its launch more than 140 events on all continents were added by committed individuals and organisations. A huge thank you to all contributors to the success. And to the others: Keep on adding...!

## Workshop Maternal and Newborn Health in the European Parliament

In the runup to World Prematurity Day, renowned health experts and academics, World Health Organization (WHO) ambassadors and patient representatives met in Brussels for a workshop on maternal and newborn health. It was kindly hosted by MEP Dr Angelika Niebler and MEP Dr Peter Liese, in close collaboration with EFCNI.

## A cosy time-out for parents

EFCNI is happy to support the creation of a new parent room *Kleine Auszeit* (Small Break) at the German Catholic Children's Hospital Wilhelmsstift in Hamburg. For this purpose EFCNI used the prize money Silke Mader received as an awardee of the *Prix Courage*. This new feel-good space for parents gives them the opportunity to feel welcome, rest, relax and regain energy, or have lunch breaks, and to exchange information.
