

The European Foundation for the Care of Newborn Infants (EFCNI) is the first pan-European organisation and network to represent the interests of preterm and newborn infants and their families. It brings together parents, healthcare experts from different disciplines, and scientists with the common goal of improving long-term health of preterm and newborn children. To strengthen our team we are looking for a

Senior Project Manager (m/w/d)

Maternal and Newborn Health (fulltime/remote with permanent residency in Germany)

Your Tasks

- Responsibility for projects related to the European Standards of Care for Newborn Health (ESCNH): <https://newborn-health-standards.org/>. In particular, scientific support for the implementation materials (manual and self-assessment tool) and the realisation of the lifecycle
- Planning and implementation of digital and in-person workshops and Delphi panels with different stakeholders
- Representation of the patient's / parent's voice in international and EU-funded research projects. This also includes tasks in the field of communication and dissemination
- International project management, e.g. conceptualising, and drafting scientific manuscripts, development of position papers or manuals, in cooperation with international key opinion leaders from medicine, science and health practice
- Participation at inter(national) conferences and congresses (live and digital)
- Participation in awareness-raising and public relations

Our Offer

- Permanent employment contract, flexible working hours and possibility to work remotely (permanent residency in Germany mandatory)
- An attractive position where you contribute actively to the care of newborn infants in Europe and worldwide
- A dynamic and highly motivated team with a flat hierarchy and short decision-making paths
- A large international network with medical associations, parent and patient organisations, policy makers and industry partners

Your Qualifications

- Strong scientific background related to health. e.g. public health, life science, political science, psychology or similar including a relevant background in project management with appropriate scientific experience. Doctorate degree preferred but adequate experience will equally be considered
- Independent, structured and result-oriented way of working, as well as a high level of commitment and team spirit
- Several years of experience in project management (and qualitative research) is essential
- Excellent written and oral communication skills in English (and preferably German as well)
- Very good presentation and moderation skills geared towards a wide variety of target groups in English
- Social and intercultural competence as well as the ability to put yourself in the parents' position
- Experience of working with multiple stakeholders, including academics, scientific and healthcare experts, patient organisations and relevant professional/interest groups
- Willingness to travel nationally and internationally

Did we spark your interest?

- We look forward meeting you. Please send your complete documents (cover letter, CV, certificates)* along with your salary expectations and your next possible starting date to career@efcni.org. Please note that we can only process complete applications.
- In case of questions please contact Ms Tanja Augsten: Phone: +49-(0)89 890 83 26 25
- Information about EFCNI: www.efcni.org
