

The European Foundation for the Care of Newborn Infants (EFCNI) is the first pan-European organisation and network to represent the interests of preterm and newborn infants and their families. It brings together parents, healthcare experts from different disciplines, and scientists with the common goal of improving long-term health of preterm and newborn children. To strengthen our team we are looking for a

Senior Project Manager (m/w/d)

Maternal and Newborn Health (fulltime/remote with permanent residency in Germany)

Your Tasks

- Definition and execution of public policy and advocacy programmes at international level, including engagement with international stakeholders and/or development and dissemination of patient information documents
- Representation of the patient's / parent's voice in international and EU-funded research projects. This also includes tasks in the field of communication and dissemination
- (Inter)national project management, e.g. conceptualising, and drafting scientific manuscripts, development of position papers or manuals, in cooperation with international key opinion leaders from medicine, science and healthcare practice
- Being a key contact person for international corporate partners (including organising regular calls, planning, preparing and leading strategy meetings)
- Participation in awareness-raising and public relations work
- Planning and implementation of digital and in-person workshops with different stakeholders
- Participation at (inter)national conferences and congresses (live and digital)

Our Offer

- The position is initially limited to one year with the prospect of a subsequent, permanent employment contract
- Flexible working hours and possibility to work remotely (permanent residency in Germany mandatory)
- An attractive position where you contribute actively to the care of newborn infants in Europe and worldwide
- A dynamic and highly motivated team with a flat hierarchy and short decision-making paths
- A large international network with medical associations, parent and patient organisations, policy makers and industry partners

Your Qualifications

- Strong scientific background related to health, e.g. in the fields of public health, life science, political science, nutrition, pharmaceutical sciences or similar including a relevant background in project management with appropriate scientific experience. Doctorate degree preferred but adequate experience will equally be considered
- Experience of working with multiple stakeholders, including academics, scientific and healthcare experts, patient- / parent organisations and relevant professional/interest groups
- Very good presentation and moderation skills aimed at a variety of target groups (e.g. medicine, industry, and patient-/ parent representatives)
- Independent, structured and result-oriented way of working, as well as a high level of commitment and team spirit
- Excellent written and oral communication skills in English and German
- Social and intercultural competence as well as the ability to put yourself in the parents' position
- Willingness to travel nationally and internationally

Did we spark your interest?

- We look forward meeting you. Please send your complete documents (cover letter, CV, certificates)* along with your salary expectations and your next possible starting date to career@efcni.org. Please note that we can only process complete applications.
- In case of questions please contact Ms Tanja Augsten: Phone: +49-(0)89 890 83 26 25
